

Food System Survey

ONLINE Fieldwork: 18th-20th May 2018

Absolutes/col percents

Table 1

Q1. The food system - the way our food is produced and consumed - has effects on people, animals and the planet. One way of assessing the state of the food system is to think about whether those effects are fair. For example, whether people have access to healthy and affordable food, whether animals are treated humanely, whether farm workers are treated and paid well etc. With these considerations in mind, how fair or unfair do you feel the food system is to...?

Q1. The food system - the way our food is produced and consumed - has effects on people, animals and the planet. One way of assessing the state of the food system is to think about whether those effects are fair. For example, whether people have access to healthy and affordable food, whether animals are treated humanely, whether farm workers are treated and paid well etc. With these considerations in mind, how fair or unfair do you feel the food system is to...?

Q2. As the UK leaves the EU, farming subsidies, food standards and regulations will need to be changed. There is a debate about whether this will be beneficial or detrimental to people, animals and the natural environment e.g. in relation to workers' rights, animal welfare, human health, protecting the environment and farmer livelihoods. When the UK leaves the EU, do you think the UK food system will be more or less fair for...?

Q2. As the UK leaves the EU, farming subsidies, food standards and regulations will need to be changed. There is a debate about whether this will be beneficial or detrimental to people, animals and the natural environment e.g. in relation to workers' rights, animal welfare, human health, protecting the environment and farmer livelihoods. When the UK leaves the EU, do you think the UK food system will be more or less fair for...?
